Mr. Colm Hussey
On behalf of Rilta Environmental Limited

23/05/2019

Reg. No.: W0185-02

Notification in accordance with Regulation 11(2)(b) of the EPA (Industrial Emissions)(Licensing) Regulations 2013, in respect of a licence review from Rilta Environmental Limited for an installation located at Rilta Environmental, Block 402, Grant Drive, Greenogue Business Park, Rathcoole, Dublin

Dear Sir or Madam,

I refer to your Industrial Emissions licence review application (W0185-02) and associated Environmental Impact Statement received by the Agency on 31st July 2017.

The Agency has reconsidered the screening determination of 18/02/2019 (issued on 11/03/2019) having regard to the activity for which the licence review application relates. In accordance with Section 83(2A) of the EPA Act 1992, as amended, the Agency has determined that the application should be made subject to an Environmental Impact Assessment (EIA) as respects the matters that come within the functions of the Agency.

Having considered the information provided by the applicant, it has been determined that the activity exceeds the following threshold in Schedule 5, Part 2 of the Planning and Development Regulations 2001, as amended, and is likely to give rise to significant effects on the environment by virtue of its nature, size and location:

- *11 (b) Installations for the disposal of waste with an annual intake greater than 25,000 tonnes not included in Part 1 of this Schedule*

Having regard to the above advice, and as previously requested in Agency correspondence dated 06/11/2018, the Agency are now seeking further information on your application and associated EIS. You are required to provide an updated Environmental Impact Assessment Report (EIAR) to meet the requirements of Directive 2011/92/EU as amended by 2014/52/EU (EIA Directive).

The updated EIAR should be submitted to the Agency not later than **4 weeks** of the date of this notice, in order to allow the Agency to process and determine your application in a timely manner.

In addition to the above please also provide an updated non-technical summary to reflect the information provided in your reply.

Your response to this request is to be submitted via EDEN. Guidance on how to use this portal is available on the EPA website at <http://www.epa.ie/pubs/forms/lic/industrial%20emissions/licenceapplicationformguidance.html>.

Please be advised that the EIS should be prepared having regard to the EPA's guidance documents on EIS, which are available at the following link: <http://www.epa.ie/downloads/advice/ea/guidelines/>.

Yours faithfully,

Environmental Licensing Programme
