Re: Risk assessment on an historic landfill (Omeath Closed Landfill) in support of an application for a certificate of authorisation in accordance with regulation 7 of the Waste Management (Certification of Historic Unlicensed Waste Disposal and Recovery Activity) Regulations 2008.

Dear Director,

As a person who is qualified, trained and experienced to the standard set out in section 2.3 of *Code of Practice: Environmental Risk Assessment for Unregulated Waste Disposal Sites* (EPA, 2007), it is my opinion that the risk assessment carried out by OCM using data compiled by Louth County Council and its consultants on the closed landfill at **Omeath Co. Louth** is adequate and complete.

The risk assessment complies with all of the requirements of the *Code of Practice* and the *EU Habitats Directive 92/43/EEC*. The local authority, in carrying out the risk assessment, has followed and completed the steps set out in the *Code of Practice* and associated guidance (Matrix 1 and Matrix 2 – as published).

The following items:

- - the risk assessment,
- - the findings and conclusions of the risk assessment,
-

are, in my opinion, appropriate and adequate to:-

- identify the instances and risks of environmental pollution arising from the closed landfill to which this application refers,
- proportionately address any and all such instances and risks of environmental pollution,
- ensure that any future instances of environmental pollution will be detected in a timely manner.

I have advised the local authority on the following aspects of this project or have carried out or managed the following aspects of the project on behalf of the local authority

- - Tier 2 risk assessment (Yes) OCM completed Tier 2 and QRA.
- - Remedial Measures (Not Applicable)
- - Post-Remediation Monitoring Programme (Not Aplicable).

Signed:

Sean Moran
