

Attachment-6-3-7 Project and Threshold Planning

The following activity listed in Schedule 5 of the Planning and Development Regulations (S.I. No. 600 of 2001) will be carried out at the North City Operations Depot.

Part 2:

Class No.	Description
Class 11(b)	<i>Installations for the disposal of waste with an annual intake greater than 25,000 tonnes not included in Part 1 of this Schedule</i>

It is noted, however, that the 25,000 tonnes per annum threshold for this Class of activity will not be exceeded. It should also be noted that the 'disposal of waste' activity refers to pre-treatment activities only, which are typical of a waste transfer station, as described in Attachment-4-3-4-R and D Activity Capacity Calcs.
