

Attachment-4-3-6-Maximum Waste Accepted Calculations

The tables below outline the proposed Maximum Accepted Waste Totals for the facility broken down as required in the Application Form.

Table 1: Summary of waste for acceptance at Ballymun Recycling Centre (Waste Source)

Waste Source		
	TPA	Details
Household Waste	5,000	Waste accepted from members of the public at the facility
Municipal Subtotal	5,000	
C&D Subtotal	0	
Other Subtotal	0	
TOTAL	5,000	

Table 2: Summary of waste for acceptance at Ballymun Recycling Centre (Hazardous and Non-Hazardous)

Waste Type		
	TPA	Details
Household Waste	400	Maximum hazardous waste intake based on figures from operational Ringsend facility
Hazardous Total	400	
Household Waste	4,600	Total proposed for acceptance less estimated hazardous waste quantity
Non-Hazardous Total	4,600	
TOTAL	5,000	

The actual hazardous waste intake at the facility is likely to be much less than 400 TPA. Approval is sought for an overall maximum waste intake of 5,000 TPA, such that the non-hazardous waste intake may exceed 4,600 TPA provided that the overall maximum is not exceeded.
