**Re: PACKAGING LAUNDRY LIMITED – WASTE LICENCE APPLICATION FOR THE OPERATION OF A WASTE FACILITY AT  
OLDCOURT BUSINESS PARK, BOGHALL ROAD, BRAY, CO. WICKLOW**

Dear Sir/Madam,

The primary objective of this Licence Application by Packaging Laundry Limited is to expand the activities of the facility, which currently operates under a waste facility permit issued by Wicklow County Council. Current site activity includes the re-conditioning/refurbishment of empty industrial packaging (notably IBCs). The permit allows for the collection of metal and plastic packaging material defined under List of Waste Codes 15 01 02 and 15 01 04.

The application seeks to expand activity at the facility to include for the reception, storage and recovery of small amounts of metal, composite, paper, cardboard, wooden and plastic packaging materials. The company plans to expand services so that limited empty packaging defined under List of Waste Code 15 01 10\* can be accepted and refurbished. To facilitate this activity, Packaging Laundry Limited has been advised by the Agency that a waste licence is required.

The main activity at the site will continue to be the refurbishment of empty IBCs and the total tonnage sought in the application is up to 1,650 tonnes per annum.

Given the nature and small scale of the activity that will be undertaken under Licence, we hereby request that this application is prioritised for determination. Please contact the undersigned in relation to matters relating to this request.

I trust that this is in order.

Yours sincerely,

---
