JULY 2012

Land Use

The site is currently owned by Cavan County Council and was previously used for agricultural grazing. However since the tier 2 risk assessment was carried out, it has been fenced off and left fallow. This was deemed necessary, as potentially hazardous wastes were identified on site, during investigations for the tier 2 risk assessment.

The topography of the historic landfill appears as a predominately flat, undulating in a south east direction.

The site boundaries are marked by a local road to the Southwest. The Northern, Eastern and Southern boundaries comprise of a wooden post and wire fence and watercourse. Land to the East and north is primarily open grass land of agricultural use while the land south and west of the site comprises of forestry and scrubland. The surrounding land use is predominantly agricultural and forestry.
