ENVIRONMENTAL LICENSING PROGRAMME	
TO:	Marie O'Connor, Programme Manager
FROM:	Eve O'Sullivan, Programme Officer, Environmental Licensing Programme
DATE:	3 September 2019
RE:	Clerical Amendment to Waste Water Discharge Licence, Register Number: D0034-01, held by Irish Water for the Agglomeration named Greater Dublin Area.

The Agency received a request on 16 August 2019 from Irish Water, Licence Reg. No. D0034-01 to clerically amend their Licence.

This memo recommends that the change may be accommodated by a Clerical Amendment, in accordance with Regulation 6(3) of the Waste Water Discharge (Authorisation) Regulations, 2007 as amended.

1. Reason for Clerical Amendment

On 15 February 2017 the licensee submitted a Licence Change Request for a technical amendment which noted incorrect Storm Water Overflow (SWO) Discharge Location co-ordinates. On 20 February 2018 Technical Amendment B was issued with the incorrect co-ordinates. The correct location co-ordinates were however, noted on the map submitted by the licensee with the Licence Change Request and were used by the inspector in the technical amendment assessment.

On 16 August 2019 a clerical amendment request was submitted by the Licensee to correct the SWO Discharges Location co-ordinates. The proposed change will not alter the assessment that was carried out for Technical Amendment B that issued in February 2018.

2. Recommendation

I recommend that the requested changes be approved as set out in the attached recommended Clerical Amendment C.

Signed

Eve O'Sullivan
Programme Officer
Environmental Licensing Programme
