Reg. No. H0020-01

Re: Cootehill Landfill – Notice in accordance with Regulation 7(4) of the Waste Management (Certification of Historic Unlicensed Waste Disposal and Recovery Activity) Regulations, 2008

Dear Mr. Keating,

I am to refer to the above referenced application for a certificate of authorisation in relation to the above referenced historic landfill.

Having examined the foregoing, I am to advise that the Agency is of the view that the application does not comply with Regulation 7(2) of the Waste Management (Certification of Historic Unlicensed Waste Disposal and Recovery Activity) Regulations, 2008.

You are therefore requested in accordance with Regulation 7(4) of the Regulations, to take steps to supply the information detailed below:

REGULATION 7(2) COMPLIANCE REQUIREMENTS

1. Section C.2 of the application form states the year of 1981 as the closure year for the operation of the landfill, while The Non-Technical Summary states the year of 1991. State which closure date is correct.
2. Your correspondence dated 6th September 2019 states that remediation works, including the removal of waste, were carried out. Please state the timeframe in which the works were carried out and provide the completion date for these works.
3. State whether all waste has been removed from the site and whether waste which was deposited on the adjacent private land was also removed.
4. Provide the total tonnage for the waste removed from the County Council's site and the total tonnage for the waste removed from the adjacent land in private ownership.
5. The Validation Report dated December 2016 states that following the removal of waste, soil was imported to the site. State the tonnage for the total quantity of the imported soil.

6. If this soil was imported as waste, please state under what authorisation the soil was brought to the site.
7. If the soil was imported as by-product, provide details of the notification of by-products in respect of this material.
8. Please state the dates on which the importation of soil to the site was commenced and completed.

Your reply to this notice should include a revised non-technical summary, which reflects the information you supply in compliance with the notice, insofar as that information impinges on the non-technical summary.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Please supply the information in the form of one original plus one copy within *two weeks* of the date of this notice. In addition, please submit one copy of the requested information in electronic searchable PDF format on a CD-ROM to the Agency. Please note that all maps/drawings should not exceed A3 in size.

Please note that the application's register number is H0020-01. Please direct all correspondence in relation to this matter to *Administration, Environmental Licensing Programme, Office of Environmental Sustainability, Environmental Protection Agency, Headquarters, PO Box 3000, Johnstown Castle Estate, County Wexford* quoting the register number.

Yours sincerely,

Ewa Babiarczyk
Inspector
Environmental Licensing Programme
Office of Environmental Sustainability
