The planning application may be inspected or purchased at a fee not exceeding the reasonable cost of making a copy, at the offices of Dublin City Council during its public opening hours and a submission or observation in relation to the application may be made to the authority in writing on payment of the prescribed fee within the period of 5 weeks beginning on the date of receipt by the authority of the application.

DUBLIN CITY COUNCIL I. John Noel McGivney, intend to apply to Dublin City Council for permission for development at lands adjacent to 25A Rathdown Road, Phibsborough, Dublin 7. The development will consist of: Construction of an adjoining three storey building containing 5 no. apartments consisting of: 2 no. 1 bedroom apartments and 3 no. 2 bedroom apartments; associated balconies and patios; 2 no. car parking spaces to all ancillary site works. The planning application may be inspected or purchased at a fee not exceeding the reasonable cost of making a copy, at the offices of Dublin City Council, Planning Department, Block 4, Grand Floor, Civic Offices, Wood Quay, Dublin 8 during its public opening hours (9.00am - 4.30pm). A submission or observation in relation to the application may be made in writing to the planning authority on payment of the prescribed fee (€20.00) within the period of 5 weeks beginning on the date of receipt by the authority of the application, and such submissions or observations will be considered by the planning authority in making a decision on the application. The planning authority may grant permission subject to or without conditions, or may refuse to grant permission.

Kildare County Council Phoenix Sand Ltd intend to apply for permission for the development of a Waste Recovery Facility at a disused quarry, Co. Kildare. The subject site will be ca. 7.33 hectares in size. The principal development activity will be the deposition of waste soil and stone at the quarry for the purposes of backfilling. This will involve the use of subsoil and overburden, sourced from construction, renovation and demolition sites, to backfill and restore an existing void onsite created by past extraction of materials. The footprint of proposed area to backfill is 1.84 hectares in size. The proposed quantity of such material to be accepted and infilled would be less than 17,500 tonnes per annum, and overall is expected to be approximately 100,000 tonnes throughout the operational phase of the proposed activity. The principal waste recovery and materials through land deposition, and to achieve the improvement and development of land and site restoration. In addition to the principal waste activity described above, it is proposed to carry out the following secondary waste recovery activities: Intake of topsoil, screening at proposed screening plant and resale of such material, intake of gravel and sands, washing at existing washing plant and resale of such materials, intake of concrete, concrete crushing, intake of concrete crushing equipment, mixing with sand and gravel before being fed to the washing plant to form aggregate, and the resale of such material, and; Intake of garden waste, shredding and composting of this waste within a silage pit draining to an underground agricultural land spreading. In all, less than 25,000 tonnes of waste materials will be accepted on-site for recovery per annum. A Waste Facility Permit will be obtained for site activities as they will fall under the scope of the Waste Management (Facilities Permit and Registration) Regulations as amended. The planning application may be inspected, or purchased at a fee not exceeding the reasonable cost of making a copy, at the offices of the Planning Authority during its public opening hours and a submission or observation in relation to the application may be made to the authority in writing on payment of the prescribed fee within the period of 5 weeks beginning on the date of receipt by the authority of the application.
