Re: Application for Licence Reg No: W0183-02

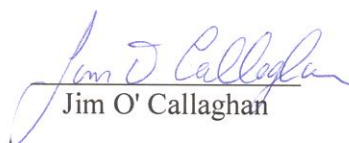

To whom it concerns,

I refer to the correspondence dated 27th November regarding the lack of a response to the Agency's notice of the 18th September.

Based on the content of the notice it had been the intention of Starrus Eco Holdings Ltd to withdraw the review application based on the Agency's determination that the changes that are now proposed can be accommodated by a Special Engineering Works (SEW) submission to the Office of Environmental Enforcement (OEE).

However, the OEE has informed SEHL that the proposal to relocate waste operations from the existing building to the new building to facilitate the provision of the plastics recycling plant cannot be accommodated by an SEW and that either a Technical Amendment or a licence review is required. SEHL has appealed this determination and pending the outcome wishes to retain the right to proceed with the review application.

Yours Sincerely

Jim O' Callaghan
