

## ATTACHMENT-6-3-7-PROJECT AND THRESHOLD - PLANNING

Schedule 5 of the Planning and Development Regulations 2001 – 2018 sets out classes of development for which EIA is required. Part 2 (11) (b) of that schedule relating to ‘Other Projects’ states that EIA is required for development which comprises:

*“(b) Installations for the disposal of waste with an annual intake greater than 25,000 tonnes not included in Part 1 of this Schedule.”*

The estimated volume of waste imported to the site will be approx. 166,666m<sup>3</sup> (300,000 tonnes) per annum and therefore exceeds the threshold set out in Part 2(11) (b) and a mandatory EIAR is required.
