Dear Ewa,

In relation to the above, I wish to confirm that the site outlined in red in Figure 2.5 of the attached document (dated 27 January 2020) represents the site boundary.

I wish to clarify that the ditch/dry drain along the northern site boundary is located within the site as indicated in Figure 2.2 (Dated 27/01/2020) and on the CSM in Figure 5.2 (Dated 28/01/2020).

The CSM of Figure 5.2 (Dated 28/01/2020) is based on a North-South section through the landfill.

Post remediation, I can confirm that the site will be used for agricultural purposes such as the grazing of animals.

If you have any queries please let me know.

Yours Sincerely

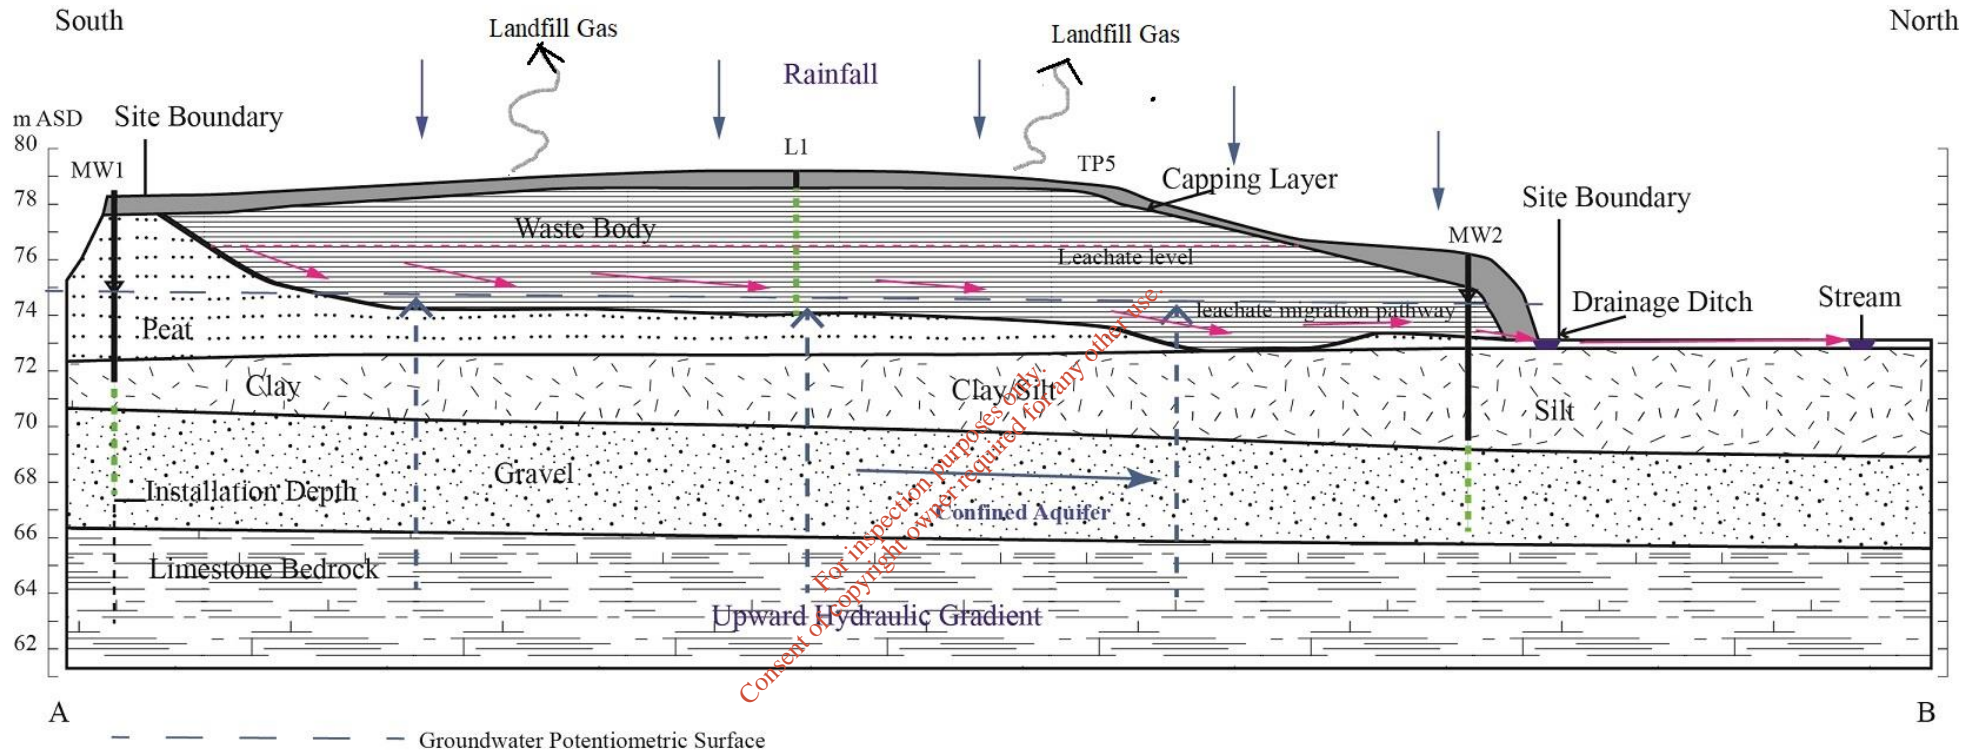

*Niall Kennedy*
