### Recommendation

Based on your responses to the forgoing questions the recommended option is for you to submit a 'Request Licence Amendment' for this proposed alteration.

To submit this request to the EPA you should locate it in the 'Request Alteration' area in LMA. Click on 'Proceed' against this saved request, and then click on the 'Request Licence Amendment' button (in STEP 2 of the process). Then you will be required to provide more detailed information about your proposed amendment.

Note: The responses you have provided in this Screening Report will form part of the information record if you decide to proceed with this alteration request.

Recommendation Date: 10/01/2020

## Clerical or Technical Amendment Application Details

## Proposed Alteration Description

Panda, following a review of the company's requirement to meet customer needs, has determined that the construction of a new building (for the acceptance and segregation of skip waste of manual and basic mechanically means by track machines and loading shovels) is required to allow for the continued expansion of our recycling capacity in a safe and environmentally friendly manner. The skip waste is already been accepted in the existing building. There will be no new emission point and due to the nature of the waste accepted, no odour emissions will occur.

<b>Priority</b>	3. Urgent
<b>Category of Amendment</b>	(b) Facilitating the doing of any thing pursuant to a condition attached to the licence where the doing of that thing may reasonably be regarded as having been contemplated by the terms of the condition or the terms of the licence taken as a whole but which was not expressly provided for in the condition
