Dear Ms. French,

RE: Durrus Waste Water Discharge Licence D0545-01 – Clerical Amendment Application

The Agency issued a Wastewater Discharge Licence (WWDL) for the Durrus agglomeration (D0545-01) on 09th July 2019.

Irish Water now requests a Clerical Amendment under Section 33 (1) of the Waste Water Discharge (Authorisation) Regulations 2007, as amended, to amend *Schedule A.1: Primary Waste Water Discharge & Monitoring*, and schedule A.3, Storm Water Overflows of WWDL D0545-01.

A clerical error has been identified in the Durrus Waste Water Discharge Licence and Irish Water now requests the Eden codes in Schedule A.1 and Schedule A.3.1 be amended as suggested in the table below:

Eden Code	Licence Code	Discharge Location	Name of Receiving Water	WFD Code Receiving Water
TPEFF0500D0545SW001	SW001	E 094437 N 041831	Four Mile Water	IE_SW_21F020500
TPEFF0500D0545SW002	SW002	E 094437 N 041831	Four Mile Water	IE_SW_21F020500

Irish Water has had regard to the EPA’s publication *EPA Guidance for Irish Water on Requests for Alterations to a Waste Water Discharge Licence or Certificate of Authorisation* in compiling this submission for a Clerical Amendment.

The proposed change will not result in a material change to the location, nature or volume of the discharge from the agglomeration.

Yours sincerely,

Niall Horgan

Environmental Regulation Manager
