Mr David Naughton  
On behalf of Starrus Eco Holdings Limited

24 April 2020

Reg. No.: W0183-02

Notice in accordance with Regulation 19(3) of the EPA (Industrial Emission) (Licensing) Regulations 2013 as amended, in respect of the withdrawal of a licence review from Starrus Eco Holdings Limited for an installation located at Millennium Business Park, Grange, Ballycoolin, Dublin 11.

Dear Sir,

I refer to correspondence of 7 January 2020 notifying the EPA of your wish to withdraw your licence review application which was received by the EPA on 01 March 2017.

I advise you that the contents of your request have been noted and our records updated to reflect that this licence review application is regarded as being formally withdrawn. That being the case, it is no longer the function of the EPA to consider any documentation which relates to the above application.

If this installation should fall within the scope of any of the classes in the First Schedule of the EPA Act as amended at some time in the future, please note that you will be required to obtain a licence.

It should be clearly understood that the onus for lodging an application with the EPA rests with the person carrying on the activity. It should also be noted, for future reference, that it is an offence liable to prosecution to carry on an activity which requires a licence in the absence of such a licence.

Yours faithfully,

Environmental Licensing Programme
