RE: Bridesbridge (A0333-01) – Secondary Discharge from Water Treatment plant (WTP)

Dear Inspector,

The Agency issued a Waste Water Discharge Certificate of Authorisation for the Bridesbridge & Environs Agglomeration on the 16th June 2011.

Irish Water now requests a Technical Amendment under Section 33 (1) of the Waste Water Discharge (Authorisation) Regulations 2007, as amended, to amend this certificate in order to remove any requirements related to the secondary discharge point as detailed below:

Certificate of Authorisation No.	Unique Point Code (as per application)	Source	Type	Discharge Location	Name of Receiving Water	WFD Code Receiving Water
A0333-01	SW02 BBR	Conna Regional WTP (sludge holding tank)	Secondary Discharge	E 185692 N 091273	River Bride	IE_SW_18B050500

The secondary discharge referenced above does not contain any domestic wastewater (ref. Source above). It is therefore not classified as a wastewater discharge, as defined in the Waste Water Discharge (Authorisation) regulations 2007, and as such, should not be included in this Certificate of Authorisation.

Please note that under the *Local Government (Water Pollution) Regulations, 1978* (S.I. No. 108 of 1978) First Schedule Class II, the discharge of waterworks sludges or washwater is also exempt from Section 4 licensing requirements.

Accordingly, Irish Water is requesting the Agency to regularise the above referenced authorisation.

Yours sincerely,

Joanne McGuinness
