

Licence Alteration Request

Alteration Details	
Licence	A0333-01 Bridesbridge
Licensee	Irish Water
Title of Alteration	Technical Amendment

Clerical or Technical Amendment Application Details

Proposed Alteration Description

Irish Water requests a Technical Amendment under Section 33 (1) of the Waste Water Discharge (Authorisation) Regulations 2007, as amended, to amend certificate A0333-01, in order to remove requirements related to the secondary discharge point from Conna Water treatment plant sludge holding tank (waterworks sludges/washwaters), as it does not contain any domestic waste, and as such should not be included in the authorisation.
