

# Licence Alteration Request

Alteration Details	
Licence	<b>A0336-01      Freemount</b>
Licensee	Irish Water
Title of Alteration	<b>Technical Amendment</b>

## Clerical or Technical Amendment Application Details

### Proposed Alteration Description

Irish Water requests a Technical Amendment under Section 33 (1) of the Waste Water Discharge (Authorisation) Regulations 2007, as amended, to amend this certificate in order to remove authorisation requirements related to the secondary discharge point as detailed below:  
 The secondary discharge referenced above does not contain any domestic wastewater (it contains only waterworks sludges/wash waters). It is therefore not classified as a wastewater discharge, as defined in the Waste Water Discharge (Authorisation) regulations 2007, and as such, should not be included in this Certificate of Authorisation.
