Mr. Jim Johnson,
Environmental Licensing Programme,
Office of Environmental Sustainability,
Environmental Protection Agency,
PO Box 3000,
Johnstown Castle Estate,
Wexford,
Y35 W821

RE: Article 14(2)(b)(ii) of the Waste Management (Licensing) Regulations, in respect of a licence application from Roadstone Limited for a facility located at Midleton Quarry, Castleredmond, Midleton, Cork, D24PKK2

EPA Reg. No.: W0307-01

RESPONSE TO REQUEST FOR FURTHER INFORMATION

Dear Mr. Johnson,

I refer to your letter dated 18.06.20 requesting additional information in respect of the above described licence application, and to subsequent correspondence extending the response period for the information sought to 5th August 2020.

We now enclose as requested the information set out below.

1 Article 12 Compliance Requirements

We now enclose a revised Drawing Ref. CP17028WL0008 (Rev P03) which includes:

- a labelled monitoring point (GW3) at the discharge of the fuel/oil interceptor
- coordinates of this monitoring point (Irish grid reference, 6-digit easting and 6-digit northing)

We also enclose a revised Drawing showing the Monitoring Locations Drawing Ref. CP17028WL0017 (Rev P02).

2 Article 13 Compliance Requirements

For compliance with Article 13 the following information is now provided. These were inadvertently omitted from the documents provided with the initial application:

- A non-technical summary of the EIAR – of the information referred to in points (a) to (d) of Article 5(1) of the EU EIA Directive.
- A reference list of sources used for descriptions and assessments included in the EIAR.

3 Appropriate Assessment

Further to the screening for appropriate assessment by the EPA on 11.06.20 which determined that an Appropriate Assessment of the proposed activity is required, we hereby submit as requested a Natura Impact Statement in accordance with the requirements of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended.

4 Other Revised Documentation

Your letter dated 18.06.20 also sought an updated non-technical summary (and Application Form, and EIAR where applicable) to reflect the information provided in our reply to the above-mentioned items, insofar as that information impinges on the non-technical summary.

In this regard we now provide the following documentation which has been updated to reflect the provisions of the NIS:

- Updated non-technical summary of EPA application documentation supplied
- Updated EIAR Ecology Chapter
- Updated EIAR Non-Technical Summary

Your letter dated 18.06.20 also sought the submission of revised drawings in the event that any drawings are subject to revision on foot of the further information sought. We confirm that no drawing revisions (other than those noted in Item 1 above) are required.

We trust that all is now in order and look forward to receipt of your decision shortly.

Yours sincerely,
for RPS Group Limited
