**Re: Agricultural premises at Gortnamuck, Kilcormac, Co. Offaly.**

Dear Mr. McEniry,

I refer to your query with regard to the above site which was recently received by the Planning Authority.

In response, I confirm that in 2007, Offaly County Council received two no. planning applications for development at the subject site:

- **07/466:** James William & Richard Fryday sought permission for the construction of over ground effluent storage tank and all associated site works – Granted 16<sup>th</sup> May 2007.
- **07/474:** RICHARD FRYDAY sought permission for the construction of slatted livestock shed including effluent tanks and all associated siteworks – Granted 14<sup>th</sup> May 2007.

No details on the total number of livestock at the subject site was provided as part of these planning applications and the information was not sought by the Local Authority as it was not deemed necessary to complete the assessment of the above planning applications at that time.

Based on the information provided by the Applicant and the appropriate legislation which was applicable at the time of assessment (2007), the Planning Authority concluded as part of their assessment that the proposed developments did not require the preparation of an EIAR.

I hope this response is sufficient however if additional information is required, please do not hesitate to contact the Planning Department.

Yours sincerely,

A/ Senior Executive Officer
