

Electronic copy

Environmental Licensing Programme,
Office of Environmental Sustainability,

14th December 2020.

Ref: 146.04-EPA-02-20

EPA Ref: W0146-04

To whom it concerns,

We reluctantly consent to the requested extension but only on the basis that the Agency immediately assign a licensing inspector to commence the revision process. This development is of national significance in relation to contingency capacity so a decision in relation to this review is important. A delay of the licensing of this facility will have implications of MSW disposal capacity for the state.

Kind Regards,

David Naughton.

Group Environmental Manager.
