Dear Sir or Madam,

I refer to the application for a licence received by the EPA on 19 December 2018.

Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with the above mentioned legislation. You are therefore requested, in accordance with the regulations, to supply the information detailed below.

In accordance with regulation 9(2)(d) a written confirmation from An Bord Pleanála was provided in Attachment 6-3-1-1 which demonstrated that the application for permission was under consideration by the Board (Reference Case Number ABP-300506-17). The Agency has since been notified by An Bord Pleanála, as per the attached correspondence, that the referenced case has been determined and that the decision of the Board is to refuse permission.

In accordance with Section 87(1D)(d) of the EPA Act, the Agency must ensure that a grant of permission has been made or a decision has been made to refuse a grant of permission for development, before notifying its proposed determination in relation to the application for a licence. As the Agency can not issue a proposed determination without a grant of permission, please advise on your intention to withdraw or otherwise proceed with this application.

The requested information should be submitted to the Agency within **2 weeks** of the date of this notice, in order to allow the Agency to process and determine your application.

It should be noted that the eight-week period within which the Agency is to decide the proposed determination will commence on the day on which this notice has been complied with or on the date immediately following the expiry of the submission period.
