**Re: Risk Assessment on an Historic Landfill in Support of an Application for a Certificate of Authorisation in accordance with Regulation 7 of the Waste Management (Certification of Historic Unlicensed Waste Disposal and Recovery Activity) Regulations 2008**

Dear Ms. Babiarczyk,

As a person who is qualified, trained and experienced to the standard set out in Section 2.3 of *Code of Practice: Environmental Risk Assessment for Unregulated Waste Disposal* (EPA, 2007), it is my opinion that the risk assessment carried out by others on behalf of **Mayo County Council** in relation to a closed landfill at **Claremorris Co. Mayo** is adequate and complete. The risk assessment complies with all of the requirements of the *Code of Practice*. The local authority or its agent/contractor, in carrying out the risk assessment, has followed and completed the steps set out in the *Code of Practice* and associated guidance (Matrix 1 and Matrix 2 – as published).

The following items:

- the risk assessment,
- the findings and conclusions of the risk assessment,
- the revised remedial measures proposed, if any, and
- the monitoring proposal proposed to be carried out to demonstrate the effectiveness of the remedial measures, if any.

are in my opinion, appropriate and adequate to:

- identify the instances and risks of environmental pollution arising from the closed landfill to which this application refers,

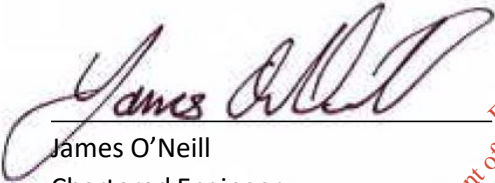

Cont'd...

- proportionately address any and all such instances and risks of environmental pollution, and;
- ensure that any further instances of environmental pollution will be detected in a timely manner.

I have advised the local authority on the following aspects or have carried out or managed the following aspects of the project on behalf of the local authority:

	• tier 2 risk assessment
x	• tier 3 risk assessment including GQRA (and DQRA as appropriate)
x	• remedial measures
x	• post-remediation monitoring programme
	• of these – my sole role has been to review the final outputs of the work
	• none

Yours sincerely,

James O'Neill

Chartered Engineer

**Re: Register of Chartered Engineers for Historic Landfill Register accordance with Section 2.3 of Code of Practice: Environmental Risk Assessment for Unregulated Waste Disposal Sites (EPA, 2007)**

Dear Mr O'Neill,

This letter confirms that your recent application to be included on the Register of Chartered Engineers – Historic Landfill Register was successful. The period of inclusion on the register is from April 3<sup>rd</sup> 2018 initially for a one year period.

Please note that the Engineers Ireland website is currently being re-designed so it may not be updated for a while. Also the process for inclusion on all registers is being reviewed and there will be communication on that at a later date.

Engineers Ireland confirms that you are a Chartered Engineer in good standing and has been assessed as a person who is qualified, trained and experienced to the standard set out in Section 2.3 of Code of Practice: Environmental Risk Assessment for Unregulated Waste Disposal Sites (EPA, 2007).

Yours sincerely,

Damien Owens  
Registrar,  
Engineers Ireland

Mr. Chris Cronin, CEng

**Re: Register of Chartered Engineers for Historic Landfill Register accordance with Section 2.3 of Code of Practice: Environmental Risk Assessment for Unregulated Waste Disposal Sites (EPA, 2007)**

Dear Mr. Cronin,

This letter confirms that you are a Chartered Engineer in good standing and have been assessed as a person who is qualified, trained and experienced to the standard set out in Section 2.3 of Code of Practice: Environmental Risk Assessment for Unregulated Waste Disposal Sites (EPA, 2007).

Engineers Ireland is pleased to confirm your continued inclusion on the Register of Chartered Engineers – Historic Landfill Register. Your inclusion on the register will last until 31 December 2020. This short term is because the process for inclusion on the Historic Landfill Register is being reviewed. New applicants and those already on the register will be requested to re-confirm their details in the coming months. Further information will be circulated at a later date.

Yours sincerely,

Damien Owens  
Registrar
