7.6 Emissions to Ground and/or Landspreading

Disposal of Treated Sanitary Effluent via Percolation Area

Are there emissions to ground from the treatment of sanitary effluent?
(Yes/No) *

If 'Yes', complete and upload a report, in to the application form, that demonstrates compliance with the criteria set out in the *Code of Practice Wastewater Treatment and Disposal Systems Serving Single Houses (p.e < 10) or Wastewater treatment Manuals – treatment systems for small Communities, Business, leisure centres and Hotels*, published by the Agency. (Select Document Type: **Sanitary Effluent Compliance**).

Sanitary Effluent Compliance' report file name:

Landspreading of Manure

Is landspreading of manure associated with the activity? (Yes/No) *

If 'Yes' complete and upload the '**Landspreading Controls - Agri**' (Operational Report for the Management of Organic Fertiliser) template with information on the management of organic fertiliser (select 'Document Type: **Landspreading Controls Agri**').

Landspreading Controls - Agri. sector document file name:

Landspreading of Non-Agricultural Organic Material

Is landspreading of non-agricultural organic material associated with this activity? (Yes/No) *

If 'Yes', complete and upload the '**Landspreading Controls - Non Agri**' template with information on the management of organic fertiliser (select 'Document Type: **Landspreading Controls - Non Agri**').

Landspreading Controls - Non-Agri. Sector document file name:

* indicates required field

Other Emissions to Ground

Are there any other aspects to the activity that may result in emissions to ground or groundwater such as landfill, lagoons, tailings ponds, contaminated land? **(Yes/No)** *

Yes

If 'Yes', upload a document in to the application form with full details of the emissions to and impacts on ground or groundwater. The document should also include details of all existing control measures - see note below. (Select the Document Type: **Emissions to Ground Controls**).

Other '**Emissions to Ground Controls**' document file name:

Storm Water Emissions

Note: The '**Emissions to Ground**' upload should describe the existing or proposed arrangements necessary to give effect to Council Directive 2006/118/EC on the protection of groundwater against pollution and deterioration and Council Directive 80/68/EEC on the protection of groundwater against pollution by certain dangerous substances.

For emissions outside the BAT guidance limit, a full evaluation of the existing abatement/treatment system must be provided. A planned programme of improvement towards meeting upgraded standards is required. This should highlight specific goals and a time scale, together with options for modification, upgrading or replacement as required to bring the emissions within the limits as set out in the BAT guidance note(s).
