Re: Doon Farm Enterprises ~ Licence Application Reg. No. P1024-02

Dear Philip

I refer to your previous correspondence in relation to the above mentioned licence applicant.

As detailed in my previous correspondence we have been liaising closely with the Agency on a number of issues pertaining to the pig sector at large including ammonia impact assessment, odour impact assessments and BREF compliance, matters which directly affect the response to the issues raised, and will be incorporated into the response once submitted.

In this instance while we will not be able to make the 1st June submission date, the applicant does not want the Agency to consider the application as having been abandoned, and it is not being considered as abandoned by the applicant.

The applicant appreciates that there has been no substantive response to the request for further information however this is being progressed, and at this juncture, and bearing in mind the ongoing restrictions, the applicant would request an extension until the end of July to complete the required response.

Should you require any further information please do not hesitate to contact me.

Yours sincerely,

Paraic Fay
