

## Licence Alteration Request

Alteration Details	
Licence	<b>W0257-01 Country Clean Recycling Limited</b>
Licensee	Country Clean Recycling
Title of Alteration	<b>Technical Amendment to Condition 3.25.2</b>

### Screening Report

No.	Question	Answer
1	Does the proposed alteration require a new class of activity or process?	No
2	Does the proposed alteration cause a new / additional main emission point?	No
3	Does the proposed alteration increase the total specified emissions for any emission parameter? <b>significantly</b> ?	No
4	Does the proposed alteration increase <b>significantly</b> the overall total emission from the installation/facility?	No
5	Does the proposed alteration involve development or proposed development that has already been granted planning permission or requires a grant of planning permission and was/is subject to EIA by the Planning Authority or An Bord Pleanála?	No
6	Did the proposed alteration require the preparation of a Natura Impact Statement (NIS) for consideration by any Planning or Public Authority?	No
7	Does the proposed alteration indicate that the EPA should conduct an Appropriate Assessment (on foot of a screening for Appropriate Assessment)?	No
8	Does the proposed change conflict with BAT as set out in the relevant BAT Conclusions? See <a href="#">here</a>	No
9	Does the proposed alteration adversely affect the energy efficiency of the installation/facility?	No
10	Does the proposed alteration adversely affect the environmental risk of the installation/facility <b>significantly</b> ?	No

## Licence Alteration Request

11	Does the proposed alteration cause an increase above the capacity limitations specified in the licence?	No
12	Does the proposed alteration require an extension of operating hours (where controlled by the licence) for an installation/facility where the public is likely to have an interest in such an extension?	No
13	Does the proposed alteration involve the incineration or co-incineration of waste materials displaying hazardous properties that were not previously authorised (as per the WID/IED)?	No
14	Does the proposed alteration introduce materials or techniques which adversely alter the probability, magnitude and duration or complexity of the site transboundary impact?	No
15	Does the proposed alteration constitute a substantial change?	No
16	Does the proposed alteration regularise an on-going breach of a licence condition?	No
17	Does the proposed alteration require a change to a condition or schedule of the Licence?	Yes

### Recommendation

Based on your responses to the forgoing questions the recommended option is for you to submit a 'Request Licence Amendment' for this proposed alteration.

To submit this request to the EPA you should locate it in the 'Request Alteration' area in LMA. Click on 'Proceed' against this saved request, and then click on the 'Request Licence Amendment' button (in STEP 2 of the process). Then you will be required to provide more detailed information about your proposed amendment.

Note: The responses you have provided in this Screening Report will form part of the information record if you decide to proceed with this alteration request.

Recommendation Date: 23/07/2019

# Licence Alteration Request

## Clerical or Technical Amendment Application Details

### Proposed Alteration Description

CCR wish to remove the word 'building' by the agency, see below.  
 We believe this condition was mainly concerned with the storage of processed timber causing dust, as per inspector report on the 26th of June 2013: 'Timber shredding currently takes place outdoors. Condition 3 of the RD requires that the timber shredder be operated in an enclosed area within six months of the date of grant of licence.  
 The only concern from this report was the dust emanated from the shredding of timber. There was no mention of dust which may potentially arise from the storage of unprocessed / non-shredded timber. CCR only wish to store unprocessed timber for temporary storage outside in a designated storage bay.  
 If CCR cannot store unprocessed / non-shredded timber outdoors, we will have to revert back to storing metal and glass outdoors as per condition 8.1. The unloading/loading of these waste streams especially glass, if stored outdoors will have potential environmental nuisances.

<b>Priority</b>	2. High
<b>Category of Amendment</b>	(b) Facilitating the doing of any thing pursuant to a condition attached to the licence where the doing of that thing may reasonably be regarded as having been contemplated by the terms of the condition or the terms of the licence taken as a whole but which was not expressly provided for in the condition

### Licence Condition Changes

Condition / Schedule Reference	Current Condition / Schedule Wording	Suggested New Wording
3.25.2	Within twelve months of the date of grant of this licence, stockpiles of timber and shredded material shall be contained within designated areas of the waste transfer station building to minimise dust generation	Within twelve months of the date of grant of this licence, stockpiles of timber and shredded material shall be contained within designated areas of the waste transfer station to minimise dust generation

### Questions

Q1	Is planning permission required to support the proposed alteration?	No
Q2	Does the application involve an installation boundary change?	No
Q3	Does the application involve changes to emissions to sewer?	No
Q4	Attach Appropriate Assessment Screening Report here	CCREPA_217_screening report.pdf

### Additional Documentation

ScreeningReport.pdf

### Final Declaration

<b>Name</b>	Flor Crowley
<b>Position</b>	EHS Manager
