

## Project & Threshold Planning

The activity is listed in Annexe II of the Directive - Installations for the disposal of waste (projects not included in Annex I), but is of a type where the need for EIA is based on a threshold. The threshold as specified in Class 11 (b) of Part 2 of Schedule 5 of the Planning and Development Regulations - Installations for the disposal of waste with an annual intake greater than 25,000 tonnes not included in Part 1 of this Schedule. The proposed annual waste intake exceeds the threshold and therefore an EIA is required.
