#### Authorisation Application Form

#### 7.6.2 Additional Information: Emissions to Ground & Landspreading

With regards to manure / poultry litter (organic fertiliser) produced by the activity, the applicant should supply details of the nature, quantity, storage facilities, end-use and records of any organic fertiliser produced, or proposed to be produced by the activity, having regard to the European Union (Good Agricultural Practice for Protection of Waters) Regulations 2014, S.I. No. 31 of 2014.

Tables 7.6.2(i), 7.6.2(ii) and 7.6.2(iii) should be completed as applicable.

Any additional relevant information should be included in Table 7.6.2(iv).

#### 7.6.2(i) Organic Fertiliser: Nature and Quantities

State the quantity of organic fertiliser produced by the activity per annum.

	Quantity produced per annum			
	Existing	Proposed		
Pig Rearing Farms <sup>1</sup> :		ي. ب		
<del>Pig slurry- (m³)</del>		met		
Farm Yard Manure (m <sup>3</sup> )		N. NOT		
		OTEOF 2014		
Poultry Farms:		ose di		
Poultry manure (m <sup>3</sup> )	0 💉	c. 650-750 tonnes		
Washwater (m <sup>3</sup> )	0 ctione	140		
	Consent of convitation			

<sup>1</sup> As per European Union (Good Agricultural Practice for the Protection of Waters) Regulations 2014, (Nitrates Regulations):

- "farmyard manure" means a mixture of bedding material and animal excreta in solid form arising from the housing of cattle, sheep and other livestock excluding poultry;
- "slurry" includes—
  - (a) excreta produced by livestock while in a building or yard, and

<sup>(</sup>b) a mixture of such excreta with rainwater, washings or other extraneous material or any combination of these, of a consistency that allows it to be pumped or discharged by gravity at any stage in the handling process but does not include soiled water.

epa

#### Authorisation Application Form

#### 7.6.2(ii) Organic Fertiliser: Storage capacity

Record the on-site storage capacity available for organic fertiliser:

Where an expansion / development is proposed, record the existing and the proposed on-site storage capacity available for organic fertiliser:

Tank	Construction type and Year of construction	Length (m)	Length (m) Breadth (m) Depth <sup>2</sup> (minus freeboard of 200/300mm)		
1 No. tank	proposed				15.9
1 No. tank	proposed	10.4	4	2.4	99.84
			Total capacity	of storage tanks:	115.74

#### (a) Slurry/Washwater Storage Capacity:

#### (b) Poultry Manure/Farmyard Manure Storage Capacity

Record the on-site storage capacity available for organic fertiliser:

Where an expansion / development is proposed, record the existing and the proposed on-site storage capacity available for organic fertiliser:

Storage shed/Area	Length (m)	Breadth (m)	Height (m)	Capacity(m <sup>3</sup> )
		o <sup>Sered</sup> +		
		Purcella		
		Total capacity of s	torage sheds/area:	

(c) Total storage capacity for organic fertiliser generated by the activity						
	Has 26 weeks stora	age capacity been provided on-site?				
	<b>NExisting</b> Proposed					
Pig Rearing:	U					
Pig slurry (m <sup>3</sup> )	<del>Y/N</del>	¥/N				
Farm Yard Manure (m <sup>3</sup> )	Farm Yard Manure (m <sup>3</sup> )     ¥/N     ¥/N					
Poultry Farms:						
Poultry manure (m <sup>3</sup> )	Poultry manure (m <sup>3</sup> ) N N*					
Washwater (m <sup>3</sup> ) N N**						
•	•	e, describe the arrangements in place egulations (SI No 605 of 2017)				
<ul> <li>*Registered</li> </ul>	Contractor in place to	move organic fertiliser off-site.				
<ul> <li>**Additional soi</li> </ul>	led water storage cap	acity in applicant's adjacent bovine				
	yard	l.				

#### (c) Total storage capacity for organic fertiliser generated by the activity

 <sup>&</sup>lt;sup>2</sup> As per European Union (Good Agricultural Practice for the Protection of Waters) Regulations 2014, (Nitrates Regulations):
 200mm freeboard must be provided in all covered tanks and 300mm freeboard in all uncovered tanks.

#### 7.6.2(iii) Organic Fertiliser: End Use

#### (a) Washwater (poultry applications only)

Where washwater is used as an organic fertiliser on land, provide the following:

Where an expansion / development is proposed, record the existing and the proposed arrangements:

	Existing	Proposed
Area of land on which washwater (organic		<u>11.83 Ha</u>
fertiliser) may be used as a fertiliser		
Location of lands on which washwater		Tullyard
(organic fertiliser) may be used as a		
fertiliser (townland & county)		
Are lands on which washwater (organic		Y
fertiliser) may be used as a fertiliser within		
ownership of applicant		

#### (b) Manure<sup>3</sup> /Slurry – complete all relevant parts

i. In which of the following ways is/will organic fertiliser (manure/slurry) be used when it leaves the installation? (select all that apply)

	Existing	Proposed
On land as fertiliser	only	À.
Mushroom compost production	outposes of to	Y
Anaerobic digestion	spectron to re-	(May in the future if an authorised site is available)
Other	Specify and escribe how and where the organic fertiliser will be used:	Y (May in the future if an authorised site is available)

*ii.* Where organic fertiliser (manure/slurry) is/will be removed from the installation **directly** to farms **for use as fertiliser on land**, provide the following for each farm:

Farm code	Location (townland and county)	Import capacity (m <sup>3</sup> )
Total Import ca	apacity (m³)	
Brief Description	on of how import capacities were	
calculated:		

<sup>&</sup>lt;sup>3</sup> Pig Manure or Poultry Manure

*iii.* Where organic fertiliser (manure) is/will be removed from the installation by a Department of Agriculture, Food and the Marine registered <u>contractor</u>, provide the following:

DAFM registration number       HAC 2342         Total amount of organic fertiliser contractor agrees to remove from the installation per annum       100%         Attach either:       100%         1. Letter of confirmation from contractor confirming this, and       2. Copy of Record 3 <sup>5</sup> from previous year (where relevant) <sup>4</sup> Identify the use proposed by the contractor for organic fertiliser taken from the installation:       Use on land       Y         Mushroom       Y       As per contractor Composed by the contractor for Organic fertiliser taken from the installation:       Mushroom       Y         Anaerobic       V       If an authorised site becomes available         Other       V       If an authorised site becomes available         Other       Y       Y         If an authorised site becomes available       Secord 3 <sup>5</sup> Y         In relation to movement of organic fertiliser off site       Other       Y/N (specify)	Name of contractor	CLR Co-Op		
agrees to remove from the installation per annum Attach either: 1. Letter of confirmation from contractor confirming this, and 2. Copy of Record 3 <sup>5</sup> from previous year (where relevant) <sup>4</sup> Identify the use proposed by the contractor for organic fertiliser taken from the installation: Identify the use proposed by the contractor for organic fertiliser taken from the installation: Identify the use proposed by the contractor for organic fertiliser taken from the installation: Identify the use proposed by the contractor for organic fertiliser taken from the installation: Identify the use proposed by the contractor for organic fertiliser taken from the installation: Identify the use proposed by the contractor for organic fertiliser taken from the installation: Identify the use proposed by the contractor for organic fertiliser taken from the installation: Identify the use proposed by the contractor for Compost production Anaerobic Use on land Y As per contractor Correspondence production Anaerobic Use on land Y If an authorised site becomes available Documentation maintained at the installation in relation to movement of organic fertiliser off site Mushroom Commercial <sup>6</sup> Y documents	DAFM registration number	HAC 2342

<sup>&</sup>lt;sup>4</sup> A copy of the Record 3 form (as required under article 23 of the European Union (Good Agricultural Practice for Protection of waters) Regulations 2014) for the previous year. For new developments, where no Record 3 forms exist yet, the applicant should supply details of land with an organic fertiliser demand available for landpreading, as per Table xxx above.

<sup>&</sup>lt;sup>5</sup> Record 3 is a 'Record of Movement of Organic Fertilisers' required to comply with the European Union (Good Agricultural Practice for Protection of Waters) regulations 2014. The Record 3 form must be submitted before the end of each year. A copy of the Record 3 must be maintained by both the exporter and the importer.

<sup>&</sup>lt;sup>6</sup> As per European Animal By-Product Regulations (EC Regulation No 1069/2009 and Commission Regulation 142/2011), (Animal By-Product Regulations).

epa

Where organic fertiliser (manure/slurry) is/will be removed from the installation for use iv. other than as a fertiliser on land or by a DAFM registered contractor, provide the following:

Total amount of organic fertiliser exported from the installation			
Proposed outlet for organic fertiliser	Mushroom Compost production	y/n	Specify facility
	Anaerobic digester	y/n	Specify facility
	Other	y/n	Specify facility
		1 -	• • • •
