In response to the Regulation 18(3)(b) request for information notice dated 07 October 2021 and further to IW's response dated 29 October 2021, please see below further relevant information;

Update the Water Quality Modelling report to include far field modelling of suspended solids having regard to the link between *E.Coli* and suspended solids and the proximity of shellfish waters to the proposed discharge.

Irish Water would like to advise the Agency that additional time is required to fully address this RFI, to allow for set up and running of the model, to produce the required plots, and to update and review as necessary. Irish Water proposes that a complete response to will be submitted by 14th January 2022 or earlier if possible.

Yours sincerely,

Sheelagh Flanagan
