WASTE WATER DISCHARGE LICENCE TECHNICAL AMENDMENT B

Licence Register Number:	D0205-01
Licensee:	Irish Water
Company Registration Number:	530363
Agglomeration:	Castleblayney Waste Water Treatment Works

Reasons for the Decision

The Environmental Protection Agency (the Agency) is satisfied, on the basis of the information available, that subject to compliance with the conditions of Licence Reg. No. D0205-01 granted on the 2/02/2011 and amended on the 27/06/2014 as well as any amendments noted herein, any discharge from the activity will comply with and not contravene any of the requirements of Regulation 6(3) of the European Union (Waste Water Discharge) Regulations 2007 to 2020.

A screening for Appropriate Assessment was undertaken to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activity, individually or in combination with other plans or projects is likely to have a significant effect on any European Site.

The activity is not directly connected with or necessary to the management of any European Site and the Agency considered, for the reasons set out below, that it can be excluded, on the basis of objective information, that the activity, individually or in combination with other plans or projects, will have a significant effect on any European Site and accordingly determined that an Appropriate Assessment of the activity was not required.

This determination is based on the fact that the proposed amendment will not result in a change to the nature or volume of the discharges from the agglomeration.

Technical Amendment

In pursuance of the powers conferred on it by Regulation 33(1)(b) and Regulation 33(1)(c) of the European Union (Waste Water Discharge) Regulations 2007 to 2020, the Agency amends Licence Reg.
