Mr. Paraic Fay  
On behalf of Doon Farm Enterprises Limited

06 December 2021

Reg. No.: P1024-02

Further Notice under the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence review application from Doon Farm Enterprises Limited for an installation located at Doon, Araglin, Kilworth, County Tipperary

Dear Mr. Fay,

I refer to the EPA's notice of 22 April 2020 (and subsequent reminder notices) requesting information in respect of the licence review application and to your response received 22 October 2021. It is noted that you have not responded fully to the notice issued.

In response to item no. 12 of the Agency's request for further information regarding an odour assessment, you indicated that an Odour Impact Assessment was to be completed and submitted under separate cover.

1. Provide an assessment of odour emissions from the proposed activity and the impact on local residents:
  - (a) The assessment should be supported by use of a model to predict odour concentrations at the sensitive receptors in the vicinity of the installation. The assessment should, as appropriate, identify odour reduction/mitigation measures.
  - (b) Ensure that the maximum number of each animal type is accounted for in the assessment.
  - (c) Reference may be made to the guidance document "Odour Impact Screening and Assessment for Intensive Pig Farms", which will be published by the EPA shortly.

With a view to advancing this application for determination, the information should be submitted to the EPA *within four weeks of the date of issue of the aforementioned guidance document.*

It should be noted that failure to comply with this request may result in the EPA activating Regulation 19 of the EPA (Industrial Emissions)(Licensing) Regulation 2013 which pertains to Withdrawal or Abandonment of application for a licence. Have regard in particular to:

*(2) Where the Agency is of the opinion that an application for a licence or review of a licence has been abandoned it may give to the applicant a notice stating that fact and requiring that person, within a period specified in the notice (being a period of not less than 14 or not more than 28 days beginning on the date of the giving of the notice), to make to the Agency a submission in writing as to why the application should not be regarded as having been abandoned.*

*(3) Where a notice has been given under paragraph (2), the Agency may, at any time after the expiration of the period specified in the notice, and after considering the submission (if any) made to the Agency pursuant to the notice, declare that the application to which the notice relates shall be regarded as having been abandoned.*

Your prompt attention to this matter is requested.

Yours faithfully,

Máire Buckley
