TECHNICAL AMENDMENT D  
TO  
INDUSTRIAL EMISSIONS LICENCE

<b>Licence Register Number:</b>	W0054-02
<b>Company Registration Number:</b>	258299
<b>Licensee:</b>	SRCL Limited
<b>Location of Installation:</b>	Unit 1A, Allied industrial Estate, Kylemore Road, Ballyfermot, Dublin 10.

## ***Reasons for the Decision***

The Environmental Protection Agency is satisfied, on the basis of the information available, that subject to compliance with the conditions of Licence Reg. **No. W0054-02 granted on 01/08/2003 and amended on 20/10/2005, 09/11/2010, 18/01/2012, and 07/01/2014**, as well as any amendments noted herein, any emissions from the activity will comply with and not contravene any of the requirements of Section 83(5) of the Environmental Protection Agency Act 1992 as amended.

A screening for Appropriate Assessment was undertaken to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activities, individually or in combination with other plans or projects are likely to have a significant effect on any European Site. In this context, particular attention was paid to the European Sites at **South Dublin Bay SAC (000210), North Dublin Bay SAC (000206), North Dublin Bay and River Tolka Estuary SPA (004024) and North Bull Island SPA (004006)**.

The activities are not directly connected with or necessary to the management of any European Site and the Agency considered, for the reasons set out below, that it can be excluded, on the basis of objective information, that the activities, individually or in combination with other plans or projects, will have a significant effect on any European Site and accordingly determined that an Appropriate Assessment of the activities was not required.

This determination is based on the following:

- **This installation is not located within any European Site:**
- **There will be no change in emissions from the installation and the amendment will not substantially change the nature or extent of the operations at the installation from what was considered when the revised licence Reg. no. W0054-02 was granted; and**
- **The change will not result in any increase in the overall waste limit accepted at the installation from what was considered when revised licence Reg. no. W0054-02 was granted.**

## ***Technical Amendment***
