RE: Our Client – DDS Brady Farms Limited

Dear Sirs,

Your letter of 7th January has been handed to us for our attention.

We are instructed that in or about December 1998 our clients sought an order of Certiorari against the Agency in respect of an IPPC Licence which the Agency had then issued.

We are instructed that those Judicial Review proceedings were ultimately resolved by agreement in 2015 when the Agency agreed to amend the Licence to reflect each of the complaints which our client had outlined in respect of the application seeking judicial review.

While we have not previously been involved in this matter, our clients cannot understand why an amended Licence did not subsequently issue incorporating all of those agreed amendments.

We would be obliged if you would please now issue such an amended Licence to reflect these amendments so that the matter can receive our further consideration.

Yours faithfully,

Connellan Solicitors
