Mr. Paraic Fay
On behalf of Mullan Poultry Products Ltd.

24 March 2022

Reg. No.: P1157-01

Further Notice under the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence application from Mullan Poultry Products Ltd. for an installation located at Drumturk, Emyvale, County Monaghan.

Dear Mr. Fay,

I refer to the EPA's notice of 26 November 2021 requesting information in respect of your licence application and your response of 22 December 2021.

For the approach outlined in your letter to be applicable in this instance, the part of the development operating below the licensing threshold (referred to in your letter as Phase 1) must have been fully operational prior to the publication of the EPA guidance "*Assessment of impact of ammonia & nitrogen on Natura sites on intensive agriculture installations*", i.e. prior to May 2021.

- Confirm the date of commencement of the poultry rearing activity onsite within the Phase 1 poultry house, and provide documented evidence to support this in the form of dated receipt(s) from the processor of acceptance of broilers for slaughter from this installation.

With a view to advancing this application for determination, the above mentioned information should be submitted to the EPA within 4 weeks of the date of this notice.

It should be noted that failure to comply with this request may result in the EPA activating Regulation 19 of the EPA (Industrial Emissions)(Licensing) Regulation 2013 which pertains to Withdrawal or Abandonment of application for a licence.

Your prompt attention to this matter is requested.

Yours faithfully,

Philip Stack
