EPA Office of Licensing and Guidance
EPA

19 April 2022

Re:- Reg. No.: W0146-04

Further Notice under the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence review from Knockharley Landfill Limited for an installation located at Knockharley Landfill, Knockharley, Navan, (Includes Townlands of Tuitearath & Flemingstown), Meath, C15 FX09

To whom it may concern,

Further to your letter dated the 10th of February, please see attached detailed response from Olfasense UK Ltd which includes the following:-

- A revised odour impact assessment which includes all potential sources of odour modelled together.
- The use of Dunsany as an alternative inland metrological station as well as the original metrological dataset from Dublin airport.

The attached report takes into account all of the Agency's observations contained within its 10th of February letter.

We also wish to inform the Agency that due to a significant change in market conditions since the application process commenced, we are no longer seeking to build, or operate, the biostabilisation/biological treatment plant at Knockharley landfill. We therefore wish to withdraw the biostabilisation element of the operation from the licence review application.

Should you have any queries on the above or attached, please do not hesitate to contact us by return or alternatively you can email David.tobin@beauparc.ie directly.

Yours sincerely,

David Naughton

On behalf of Knockharley Landfill Limited
