Mr. Eugene Brennan

On behalf of William Connolly & Sons Unlimited Company

19 May 2022

Reg. No.: P1069-01

Regulation 10(2)(b)(ii) of the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence application from William Connolly & Sons Unlimited Company for an installation located at William Connolly & Sons Unlimited Company, Grange Lower, Goresbridge, Kilkenny, R95 EKH4

Dear Mr. Brennan,

I refer to the application for a licence received by the EPA on 06 March 2018.

Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with the above mentioned legislation. You are therefore requested, in accordance with the regulations, to supply the information detailed below.

1. Provide details of the annual consumption of LPG and diesel (for refuelling) on-site and the annual electricity usage on-site (Regulation 9(2)(f)).
2. Confirm if the water abstraction well in northwest corner of the site is registered under *European Union (Water Policy) (Abstractions Registration) Regulation 2018 (S.I. No. 261 of 2018)* (Regulation 9(2)(f)).
3. Confirm the total area within the installation boundary (hectare or acres or m²).
4. Provide the grant of planning permission reference number for the new storage sheds to be built to the north of the installation (Regulation 9(2)(e)).
5. Provide confirmation from the relevant planning authority that the amended stack heights requested for inclusion in the licence, as detailed in 'Attachment 7.4.1 – Emissions to Atmosphere – Main' and as modelled in Scenario 3.2 of the Air Dispersion Model dated March 2022, are planning exempt (Regulation 9(2)(e)).
6. Provide further details on the justification for decibel level reductions for static infrastructure on-site included in Table 4.1 of the Noise Impact Assessment dated March 2022 (Regulation 9(2)(i)).
7. Provide an updated Air Dispersion Model for emissions of dust to air from the installation based on existing operations on-site, demonstrating compliance with relevant air quality standard (Regulation 9(2)(k)).

8. Provide confirmation that capacity of the Integrated Constructed Wetland shall be able to incorporate the surface water from the new the grain storage shed area if not already included in initial calculations as part of the ICW report dated 17th November 2021. (Regulation 9(2)(i)).

In addition to the above, please also provide an updated non-technical summary (Application Form, and EIS where applicable) to reflect the information provided in your reply, insofar as that information impinges on the non-technical summary.

The requested information should be submitted to the Agency within **two weeks** of the date of this notice, in order to allow the Agency to process and determine your application.

It should be noted that the eight-week period within which the Agency is to decide the proposed determination will commence on the day on which this notice has been complied with. If you have any further queries please contact licensing@epa.ie.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Your response to this request is to be submitted via EDEN. Guidance on how to use this portal is available on the EPA website at [IE Licence application guidance | Environmental Protection Agency \(epa.ie\)](#)

Please direct any queries to licensing@epa.ie.

Yours faithfully,
