Mr. Paraic Fay

Mr. William Murphy

On behalf of Clondrisse Pig Farm Limited

30 May 2022

Reg. No.: P0975-02

Regulation 10(2)(b)(ii) of the EPA (Industrial Emissions) (Licensing) Regulations 2013, in respect of a licence review from Clondrisse Pig Farm Limited for an installation located at Joristown Upper, Killucan, County Westmeath.

Dear Sirs,

I refer to the application for a licence received by the EPA on 11 June 2018 and the site visit conducted by the Agency on 24 May 2022.

You are requested, in accordance with the above mention legislation, to supply the information detailed below **in addition to** the information previously requested in the Agency's request for information issued on 24 May 2021.

1. Ensure that the number of houses and the labelling of the houses are consistent with the revised site plan and the revised modelling report(s) as requested on 24 May 2021 and point 10 below.
2. With regards to the back-up generator, confirm:
 - a) The bunding in place for the generator fuel;
 - b) The fuel type; and
 - c) Volume stored in the storage tank for the generator.
3. With regards to the hot water heating system, confirm the annual usage of kerosene.
4. Confirm the protections to be put in place for the kerosene tank.
5. With regards to water usage onsite:
 - a) Confirm the grid reference for the onsite well; and
 - b) Confirm current and proposed water usage. The figure provided in the application (7,500m³) is less than the 2018 AER figure (10,000m³). The 2019, 2020 and 2021 figures were not available.

6. Confirm the grid references for the three storm water discharge points.
7. With regards to Organic Fertiliser:
 - a) Confirm the dates of installation for each of the slurry tanks onsite;
 - b) Confirm the depth of each slurry tank;
 - c) Confirm the total capacity (excluding freeboard); and
 - d) Provide further details regarding the proposal for frequent slurry removal e.g. which houses it will apply to, the method of removal, frequency of removal, details of external storage etc.
8. Provide a revised odour assessment based on the new “EPA Pig Odour Screening Tool”.
9. Revise the site plan to include:
 - a) The full site boundary outlined in red;
 - b) All infrastructure located within the site boundary clearly identifiable with legible labels e.g. drainage, storm water discharge points, well, septic tank, fuel storage, generator etc.;
 - c) Consistent numbering and labelling of all animal houses onsite; and
 - d) Any further clarifications included in the previous request of 24 May 2021 that impacts the site plan.
10. The revised Natura Impact Statement and Ammonia Impact Assessment Report as requested in the previous request of 24 May 2021:
 - a) Should take account of the updated background data in the SCAIL model; and
 - b) Should be prepared in accordance with the EPA guidance document “Assessment of the impact of ammonia and nitrogen on Natura 2000 sites from Intensive Agriculture Installations”: <https://www.epa.ie/publications/licensing--permitting/industrial/ied/Assessment-of-Impact-of--Ammonia-and-Nitrogen-on-Natura-sites-from-Intensive-Agriculture-Installations.pdf>

In addition to the above, please also provide an updated non-technical summary (Application Form, and EIAR where applicable) to reflect the information provided in your reply, insofar as that information impinges on the non-technical summary.

The requested information should be submitted to the Agency within *4 weeks* of the date of this notice, in order to allow the Agency to process and determine your application.

It should be noted that the eight-week period within which the Agency is to decide the proposed determination will commence on the day on which this notice has been complied with. If you have any further queries, please contact licensing@epa.ie.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Your response to this request is to be submitted via EDEN. Guidance on how to use this portal is available on the EPA website at [IE Licence application guidance | Environmental Protection Agency \(epa.ie\)](#).

Please direct any queries to licensing@epa.ie.

Yours faithfully,

Linda Cahill
