IW-LT0595

Dear Inspector,

Re: Castlemartyr Waste Water Discharge Authorisation Application D0134

Further to Regulation 14(5) notice dated 10 November 2021, and 3rd June 2022 requesting IW to submit a licence review application by 10/01/2022.

A licence review application for Castlemartyr will involve a proposal to deliver an upgrade by 2026 which requires planning permission.

Regulation 16(3A) of the European Union (Waste Water Discharge) Regulations 2007 to 2020 (the “WWDA Regulations”) requires that, where a licence application involves development or proposed development, the applicant must provide confirmation from the planning authority that, *inter alia*, it is processing the planning application or has granted the planning permission. If the applicant does not comply with Regulation 16(3A) then, in accordance with Regulation 18(3A), the Agency shall refuse to consider the application.

“Application” is defined as an application by or on behalf of a water services authority for a licence or a review of a licence. Therefore, our understanding is that, for a licence review application to be considered by the Agency, Irish Water must ensure that relevant planning permission for the proposed development has been submitted to the relevant planning authority.

A planning application is proposed to be submitted for proposed development by end Q1 2023

Irish Water proposes to submit a licence review application and supporting technical documentation by end of Q1 2023.

This will also facilitate the mandatory consultation requirements between the planning authority and the EPA under the WWDA Regulations.

Yours faithfully,

Sheelagh Flanagan
Wastewater Strategy
