Mr. Paraic Fay  
On behalf of Mr. Jerry McAuliffe

17 August 2022

Reg. No. P1179-01

**Re: Appropriate Assessment in respect of a licence application from Mr. Jerry McAuliffe in respect of the installation located at Appletown, Feohanagh, Limerick.**

Dear Sir or Madam,

I refer to your application for a licence in respect of the installation located at Appletown, Feohanagh, Limerick.

I am to advise you in accordance with Regulation 42(8)(a) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, that the EPA has made a determination that an Appropriate Assessment is not required as the project, individually or in combination with other plans or projects, is not likely to have a significant effect on European sites. Notification of this determination is attached for your reference.

The application and all associated correspondence are available to view on the EPA website at [www.epa.ie](http://www.epa.ie). You are advised to refer to the website for information on the progress of the application.

If you have any further queries, please contact [licensing@epa.ie](mailto:licensing@epa.ie).

Yours faithfully,

Environmental Licensing Programme  
Office of Environmental Sustainability

## Appropriate Assessment Screening Determination

In accordance with Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, the Agency has undertaken Appropriate Assessment screening to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activity, individually or in combination with other plans or projects is likely to have a significant effect on European Sites. In this context, particular attention was paid to the European Sites listed below.

### Consent Details:

<b>Reg. No.</b>	P1179-01
<b>Applicant Name:</b>	Mr. Jerry McAuliffe
<b>Type of Consent Sought:</b>	Industrial Emissions Licence
<b>Location of installation:</b>	Appletown, Feohanagh, Limerick.
<b>Licence Application Date:</b>	8/04/2022
<b>European Site(s) assessed:</b>	Lower River Shannon SAC (Site Code: 002165)
	Blackwater River (Cork/Waterford) SAC (Site Code: 002170)
	Askeaton Fen Complex SAC (Site Code: 002279)
	Stack's to Mullaghareirk Mountains, West Limerick Hills and Mount Eagle SPA (Site Code: 004161)
	River Shannon and River Fergus Estuaries SPA (Site Code: 004077)
<b>Date of AA Screening Determination:</b>	17 August 2022

### AA Screening Determination:

That the activity is not directly connected with or necessary to the management of any European site and that it can be excluded, on the basis of objective information, that the activity, individually or in combination with other plans or projects, will have a significant effect on any European site and accordingly determined that an Appropriate Assessment of the activity was not required.

This determination has been made in light of the following reasons:

- In relation to air emissions, ammonia emissions from intensive agriculture activities can impact on European Sites and their qualifying interests. The output of the online screening tool SCAIL Agriculture (<http://www.scail.ceh.ac.uk>) predict that ammonia emissions and

nitrogen deposition as a result of the activity will not have a significant effect on qualifying interests within the European sites listed above.

- Regard has been had to the EPA's Licence Application Guidance (Assessment of the Impact of Ammonia and Nitrogen on Natura 2000 Sites from Intensive Agriculture Installations, Version 1, May 2021) in addition to the online screening tool SCAIL Agriculture as part of this Appropriate Assessment Screening Determination.
- The closest European site (Stack's to Mullaghareirk Mountains, West Limerick Hills and Mount Eagle SPA) is approximately 6kms away from the installation boundary and is considered to be outside of the zone of influence of noise emissions arising at the installation.
- It is proposed that storm water run-off from the roof and paved areas will be directed into local watercourses. There will be no other direct discharge to surface waters or groundwater within the installation boundary.
- It is proposed that wash water will be applied to farmlands in accordance with the Nitrates Regulations. It is proposed that poultry litter will be transported by a contractor to composting facilities or may be used as an organic fertiliser on farmlands in accordance with the Nitrates Regulations. The licence, if granted, relates to the site of the activity for which the licence application is made, i.e. the rearing of poultry within the installation boundary, and does not extend to the lands beyond the installation boundary on which wash water may be spread or organic fertiliser may be used.
- Given the distance from the installation to European sites and the nature and scale of emissions, it is considered that the activity in combination with other plans or projects will not have a significant effect on European Sites.

Information in relation to European Sites is available on [www.npws.ie](http://www.npws.ie)

Documents relating to the licence application are available on the Agency's website at [www.epa.ie](http://www.epa.ie)

Date: 17 August 2022
