**Re: Mr. Hugh Brady, Laragh House, Stradone, Co. Cavan
Licence Application
(Laragh House Farms Ltd.)**

Dear Sir/Madame,

CLR Co-Op Ltd will be collecting the litter generated from the poultry houses for Mr. Hugh Brady, Laragh House, Stradone, Co. Cavan. CLR Co-Op are a registered contractor with the Department of Agriculture, Food and The Marine for the transport of animal by-products (poultry litter) **DAFM Reference No. HAC 2342**. All necessary paperwork is and will be maintained, including an annual Record 3 form submitted to Department of Agriculture, Food and the Marine.

It is estimated that the litter generated will be approximately 1300 – 1400 tons per annum

Poultry litter is currently delivered to a number of mushroom compost yards, and tillage farms where it is used as an organic fertilizer. With significant demand for this poultry litter, it is intended that the additional litter generated on this poultry farm will be accommodated in these compost yards. The following yards are currently supplied by CLR Co-Op.

- Carbury Mushrooms , Derrinturn, Carbury, Co. Kildare.
- Custom Compost, Gorey, Co. Wexford.
- Newry Organic fertilizers, Mayobridge, Co. Down.

Poultry Litter is considered a much needed raw material for the mushroom industry with considerable demand at present.

Yours faithfully,

James O'Harte
CLR Co-Op Ltd

Board Members; Eamon Keelaghan, Mark McElvaney, Michael McDonnell, Eamon Clerkin,
Andy Boylan, Sean McKenna, Stephen Hall and James O' Harte.
