Dear Sir or Madam

I refer to your application for a waste water discharge licence relating to agglomeration named Castletownshend, Reg. No. D0468-02.

Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with Regulation 16 of the European Union (Waste Water Discharge) Regulations 2007 to 2020.

You are therefore required, in accordance with Regulation 18(3)(b) of the Regulations, to take steps to supply the information detailed below:

REGULATION 16 COMPLIANCE REQUIREMENTS

1. Provide a copy of a grant of planning permission comprising or for the purposes of the waste water discharge to which the application relates and the accompanying planner's report. Include confirmation in writing from the planning authority or An Bord Pleanála that an Environmental Impact Assessment was not required by or under the Act of 2000.
2. Update the application form with respect to the status of the Foreshore Act licence application.
3. Describe the existing or proposed measures to prevent unintended discharges into the water environment

Your reply to this notice should include a revised non-technical summary which reflects the information you supply in compliance with the notice, insofar as that information impinges on the non-technical summary.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to

annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Please supply the information by 17 October 2022. Please note that all maps/drawings should not exceed A3 in size.
