Dear Ms Connelly,

Under condition 7.25 of IE licence Reg. No. P0040-02, the agency increased capacity from 375 tonnes per to 450 tonnes per day. Please see attached letter from the EPA.

The company request to increase this delivery quantity to ensure materials arriving can be permitted to enter the site to 600 tonne per day. A weekly tonne of 2625 tonnes per week can still remain in place. This does not affect production capacity or intensity. This specific relates only to raw materials, to site, on any given day.

I trust this is to the satisfaction of the Agency.

Best Regards,

Signed

.....
