

It does not change the volumes of pig slurry produced on the unit.

It is purely a change in classification of the pigs on the unit.

This change in classification does not change the fact that this is still a 1,500 sow integrated pig production unit.

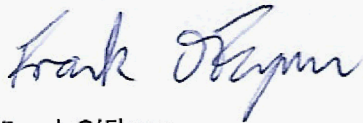

I am satisfied that permission was granted for a 1,500 sow fully integrated pig production unit at this facility in Annistown, Killeagh under Planning Ref. 12/6635.

The change in classification of pigs within the unit does not change this.

I am satisfied that the planning permission granted for this unit allows for;
1,500 sows,
6,000 weaners (up to 30kg),
12,400 production pigs (over 30kg),
10 boars.

I have referred this matter to Siún McCarthy, Executive Planner, & John Lalor, Senior Executive Planner, Planning Department, Cork County Council, & they have no objection to this change in classification.

Regards,

Frank O'Flynn,
Senior Executive Scientist.
