

**APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR THE REVIEW
OF A LICENCE**

Miltown Composting Systems Ltd., Miltownmore, Fethard, Co. Tipperary is applying to the Environmental Protection Agency (EPA) for the review of Waste Licence W0270-02 for its existing composting facility at Miltownmore, Fethard, Co. Tipperary. The review will comprise of a proposed increase in organic waste throughput at the facility from the current annual limit of 50,000 tonnes to 75,000 tonnes and will also include for the reconstruction of old agricultural sheds as maturation sheds. The application will be accompanied by an Environmental Impact Assessment Report which has also been furnished to Tipperary County Council. The proposed review is applicable to the existing licensed Miltown Composting Systems Ltd. site (ITM - 615687E, 633475N).

The Class and nature of the activity in accordance with the First Schedule to the EPA Act of 1992, as amended, is:

11.4 (b) Recovery, or a mix of recovery and disposal, of non-hazardous waste with a capacity exceeding 75 tonnes per day involving one or more of the following activities, (other than activities to which the Urban Waste Water Treatment Regulations 2001(S.I. No. 254 of 2001) apply:

- 11.4 (b)(i): biological treatment; when the only waste treatment activity carried out is anaerobic digestion, the capacity threshold for this activity shall be 100 tonnes per day.

- 11.4 (b)(ii): pre-treatment of waste for incineration or coincineration;

A copy of the application for the Licence review, the Environmental Impact Assessment Report and any further information relating to the effects on the environment of emissions from the activity may be inspected on the Agency's website or inspected at or obtained from the headquarters of the Agency as soon as is practicable after the receipt by the Agency of the application for the licence review.
