In Short, Michael Monagle Pig facility involves the rearing of pigs (EPA licence P0446-01) located at Annakisha North, Doneraile, Co Cork. The activity has been operational since the mid-1990s and falls under the threshold specified in Annex 1 of the Integrated Pollution Prevention + Control (IPPC) Directive and the First Schedule of the EPA Acts 1992 to 2007.

Installations for the intensive rearing of pigs with more than (a) 750 places for sows and (b) 2000 places for production pigs which are over 30kg.

Ground water Monitoring On- Site

There are 3 wells used on site, AAW1, AAW5 and a new additional well AAW2 to which is monitored bi-annually under Schedule 4 (iii) of the current EPA licence P0446-01. These Wells are production wells but are also utilised for integrity site monitoring. Below are results from 2022 which are within the normal range for these parameters, and don't indicate any negative influence from the site facility. These results will continue to be reviewed against future analysis results, for any indicative changes. It is company policy to ensure compliance with the requirements of the EC Environmental objectives (Groundwater) Regulations 2010, S.I. No 9 of 2010
