Storm Water Monitoring

2022 COD	AASW1
Q1	5
Q2	18
Q3	5
Q4	36

The above table represent COD results from storm water points that were analysed on a quarterly basis for 2022 which analysis were carried out from an independent laboratory.

Storm water is monitored on a weekly basis via visual inspection and a log is maintained and samples are taken on a quarterly basis and analysed in accordance with Licence Conditions.
