TECHNICAL AMENDMENT E
TO
INDUSTRIAL EMISSIONS LICENCE

Licence Register Number:	W0078-03
Licensee:	Tipperary County Council
Location of Installation:	Ballaghveny Landfill Ballymackey County Tipperary

Reasons for the Decision

The Environmental Protection Agency is satisfied, on the basis of the information available, that subject to compliance with the conditions of Licence Reg. No. W0078-03 granted on 21 December 2009, and amended on 28 June 2010, 15 January 2013, 19 December 2013, 19 June 2018 and 26 June 2020, as well as any amendments noted herein, any emissions from the activity will comply with and not contravene any of the requirements of Section 83(5) of the Environmental Protection Agency Act 1992 as amended.

A screening for Appropriate Assessment was undertaken to assess, in view of best scientific knowledge and the conservation objectives of the site, if the activities, individually or in combination with other plans or projects are likely to have a significant effect on any European Site. In this context, particular attention was paid to the European Sites at Scohaboy (Sopwell) Bog SAC (Site code 002206), Kilduff, Devilsbit Mountain SAC (Site code 000934), Sharavogue Bog SAC (Site code 000585), Slievefelim to Silvermines Mountains SPA (Site code 004165), and Lough Derg, North-east Shore SAC (Site code 002241).

The activities are not directly connected with or necessary to the management of any European Site and the Agency considered, for the reasons set out below, that it can be excluded, on the basis of objective information, that the activities, individually or in combination with other plans or projects, will not have a significant effect on any European Site and accordingly determined that an Appropriate Assessment of the activities was not required. The reasons for this determination are:

- The installation is not located within any European site.
- The technical amendment relates to a reduction in licensed boundary only. There are no changes to the nature or extent of the operations and emissions at the installation from what was considered during the assessment conducted for Licence Reg. No. W0078-03.
