**Subject:** RE: Pre-Application Meeting - Murphy Concrete

Hi Thomas,

The way that we process Technical Amendment (TA) requests is by means of a TA Campaign, whereby we assess a batch of applications received together. This way we assess 20 or so applications over the course of a week.

No date has yet been set for the first TA campaign of 2023, so unfortunately I can't give you a date at the moment as to when you will get a formal response.

Regards,  
Dave

Hi Thomas,

An AA screening is required as part of an application for a Technical Amendment. Regardless of whether or not the extra waste tonnage has already been accepted, an AA will still be needed as part of the application, for it to be assessed.

Regards,  
Dave
