Reg. No.: D0544-02

Re: Notice in accordance with Regulation 18(3)(b) of the European Union (Waste Water Discharge) Regulations 2007 to 2020

Dear Sir or Madam

We refer to your application for a waste water discharge licence relating to agglomeration named Grenagh, Reg. No. D0544-02.

Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with Regulation 16 of the European Union (Waste Water Discharge) Regulations 2007 to 2020.

You are therefore required, in accordance with Regulation 18(3)(b) of the Regulations, to take steps to supply the information detailed below:

REGULATION 16 COMPLIANCE REQUIREMENTS

1. It is understood that the planning authority:
 - have provided “a draft copy of the Final Grant, a draft copy of the Notification of Decision and a draft copy of the Conditions for 98/3907 which are the only documents available” and,
 - have confirmed that the development, the subject of this application, was granted planning permission.

Provide the Agency with written clarification from the planning authority as to whether the planning authority, based on their knowledge of legislative requirements at the time of their assessment, would have requested an EIAR or completed an EIA as part of the planning permission process.

2. Confirm, as stated in the Conclusion of the EIA Screening Report, if “The loads generated in agglomeration will not exceed 1,000 p.e. for the duration of the licence” is correct as the population equivalent of the agglomeration to which the application relates is stated as 750 p.e. in the application form.

Your reply to this notice should include a revised non-technical summary which reflects the information you supply in compliance with the notice, insofar as that information impinges on the non-technical summary.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Please supply the information by 25 August 2023. Please note that all maps/drawings should not exceed A3 in size.

Your response to this request is to be submitted via EDEN. Guidance on how to use this portal is available on the EPA website at <https://www.epa.ie/publications/licensing--permitting/industrial/ipc/how-to-open-and-respond-to-an-epa-notice-issued-to-eden.php>

Please direct any queries that you may have in relation to the above to the Inspector Úna Prendergast at 053-9160600.

Yours Faithfully,

Environmental Licensing Programme
Office of Environmental Sustainability
