[www.water.ie](http://www.water.ie)

**Re: Greater Dublin Area Agglomeration (Ringsend) - D0034-02**

In response to the regulation 18 request for information notice dated 26<sup>th</sup> July 2023, please see below relevant information:

**Confirm whether the number of overflows listed in *Attachment C.1 – Discharges & Monitoring* or the *Non-Technical Summary* is correct. Provide an updated *Attachment C.1 – Discharges & Monitoring* or *Non-Technical Summary*, as required, to reflect the correct number of overflows.**

Uisce Éireann wishes to advise the Agency that since the submission of the application, 8 additional overflows have been identified (proposed codes SW387- SW393). One SWO (SW329) has also been removed as it was found to be a duplicate, but the SWO code was assigned to another newly identified SWO discharge location.

Uisce Éireann can confirm that there is now a total of 392 Overflows, made up of 339 Stormwater Overflows, 51 Dual Function Overflows & 2 Emergency Overflows.

Please see update to attachment C.1 Table 1 (c) stormwater overflows under Appendix 1 and update to attachment C.1 Table 1 (d) emergency overflows under Appendix 2. Updated overflow discharge location maps will be submitted to the Agency as soon as they are completed.

**State a reason for the difference in the grid coordinates and naming convention for overflows in the existing licence (D0034-01) vs. the data provided in *Attachment C.1*.**

Schedule A.4 of the existing Licence D0034-01 states that discharges from storm water overflows shall be as specified in Table D.1(iii)(a) of the application (as received on the 28 July 2008).

Uisce Éireann has a number of programmes, (e.g., Infrastructure Projects and Programmes, Drainage Area Plan (DAP) Programme, Storm Water Overflow (SWO) Assessment & Monitoring Programme) to assess SWOs.

**Stiúrtóirí / Directors:** Tony Keohane (Cathaoirleach / Chairman), Niall Gleeson (POF / CEO), Christopher Banks, Fred Barry, Gerard Britchfield, Liz Joyce, Patricia King, Eileen Maher, Cathy Mannion, Michael Walsh.

**Oifig Chláraithe / Registered Office:** Teach Colvill, 24-26 Sráid Thalbóid, Baile Átha Cliath 1, D01 NP86 / Colvill House, 24-26 Talbot Street, Dublin, Ireland D01NP86

Is cuideachta ghníomhaíochta ainmnithe atá faoi theorainn scaireanna é Uisce Éireann / Uisce Éireann is a design activity company, limited by shares.

Cláraithe in Éirinn Uimh.: 530363 / Registered in Ireland No.: 530363.

Under these programmes, Uisce Éireann has verified the grid reference locations of SWOs and Emergency Overflows (EO). The verified grid reference locations as detailed in this licence review application are to be used rather than the coordinates specified in Table D.1(iii)(a) of the application (as received by the Agency on the 28 July 2008).

Furthermore, Uisce Éireann wishes to advise the Agency, that as the original naming of the discharges listed in Table D. 1(iii)(a) of the application (as received by the Agency on the 28 July 2008) were not in accordance with Agency requirements, UÉ assigned identifiers which are accordance with Section C of the Agency's Waste Water Discharge Authorisation Application Guidance Document.

**Update Attachment C.1 to provide grid coordinates, Name of Receiving Water and WFD Code Receiving Water for all storm water overflow emission points.**

Please refer to Appendix 1 and Appendix 2 for the updated list of Stormwater and Emergency Overflows. Approximate discharge locations are now provided for the 20 overflow discharge locations that were still to be determined at the time of the licence application submission. Please note that the SWO discharge locations provided for these are best approximate locations and grid coordinates may vary following completion of Drainage Area Plan (DAP) surveys. For ease of reference any changes to Attachment C1 Overflow tables are identified in different colour font (green). Updated overflow discharge location maps will be submitted to the Agency as soon as they are completed.

Yours sincerely,

Peter Keegan

Wastewater Strategy
